I am a full stack developer with a background in hospitality management and anthropology, which allows me to deliver client-centric results to everyday problems. I have a passion for creative and clean design, and I thrive in fast-paced, collaborative environments. I have a love for creating and executing private experiences, bringing client's dreams to life. As a professional with a diverse background, I am always enthusiastic about learning new skills and expanding my knowledge.

SKILLS

- Languages: JavaScript, Python, CSS, HTML
- Frameworks: React, Node.js, Express.js, Django, Bootstrap5, TailwindCSS
- Databases: MongoDB, PostgreSQL
- Tools: Jquery, Mongoose, Canvas API

PROJECTS

Stumblr   August 2021
- A full-stack social media application designed as a place for expression and the sharing of ideas.
- Created using Javascript MongoDB, Express.JS, React, Node.js and TailwindCSS.

Mammoth   August 2021
- Collaborated with a fellow Junior Developer on the construction of a full stack MERN application aiming to provide a marketplace for small businesses to maintain their inventory and provide services to consumers.
- Led Front-End design from concepts and wireframes to design execution using TailwindCSS.

Kelp   July 2021
- A full stack application focused on maintaining a community-based restaurant sharing platform.
- Created using Javascript, MongoDB, Express.js, Node.js and Boostrap5

Xhacks 2021 Hackathon   Remote
WeatherWorld   July 2021
- A full stack application built to bring scientists, fans and other members of the space and weather community together.
- Contributed to a 4 person team in the planning, construction and deployment of full-stack application in a 30 hour time span.

EDUCATION

General Assembly   Remote
Software Engineering Apprentice   June 2021 - September 2021
- A 420+ hour software engineering intensive where students develop full stack applications using JavaScript, specifically MongoDB, Express.js, React, Node (M.E.R.N stack), Python, Django and Postgresql.

Franklin Pierce University (FPU)   Rindge, NH
Bachelor of Arts   May 2015
- Major: Anthropology
- Concentration: Cultural Anthropology and Archaeology

EXPERIENCE

The William Vale Hotel   Brooklyn, New York
Sales and Operations Manager   June 2019 - June 2021

- Trained in event management software, as well as Banquet Event Order and contract creation.
- Monitored and processed 50-100 private event inquiries per day through Tripleseat.
- Assisted in the selling of event spaces and private dining experiences.
- Organized and managed events including a staff of 50-100 employees.
