Nicholas R. Rodriguez
Software Engineer

Bronx, New York - nickrrodriguez@gmail.com - (718) 404-8504
Github: https://github.com/nrayrod1016 - Linkedin: https://www.linkedin.com/in/nicholas-r-rodriguez/

I am a full stack developer with a background in hospitality management and anthropology. I have a passion for creative and clean design, and I thrive in fast-paced, collaborative environments. I have a love for creating and executing private experiences, bringing client's dreams to life. It is my goal to be in a role where I can continue to strengthen my technical skills, while delivering meaningful results to clients.

SKILLS

- Languages: JavaScript, Python, CSS, HTML
- Frameworks: React, Node.js, Express.js, Django, Bootstrap5, TailwindCSS
- Databases: MongoDB, PostgreSQL
- Tools: Jquery, Mongoose, Canvas API, Commerce.JS

PROJECTS

Stumblr   August 2021
- Stumblr is a place to express yourself, discover yourself, and bond over the stuff you love. It's where your interests connect you with your people.
- Stumblr is a blog-focused social media full-stack application using Django and Python.

Mammoth   August 2021
- Collaborated with a fellow Junior Developer on the construction of a full stack MERN application aiming to provide a marketplace for small businesses to maintain their inventory and provide services to consumers.
- Led Front-End design from concepts and wireframes to design execution using TailwindCSS.

Kelp   July 2021
- A full stack MEN application focused on maintaining a community-based restaurant sharing platform.
- Created using Javascript, Express.js, Node.js and Boostrap5

Xhacks 2021 Hackathon   Remote
WeatherWorld   July 2021
- A web app that is built to bring scientists, fans and other members of the space and weather community together.
- Contributed to a 4 person team in the planning, construction and deployment of full-stack application in a 30 hour time span.

EDUCATION

General Assembly   Remote
Software Engineering Apprentice   June 2021 - September 2021
- A 420+ hour software engineering intensive where students develop full stack applications using JavaScript -- specifically MongoDB, Express.js, React, Node(M.E.R.N stack), Python and Django through GA's Software Engineering Immersive.

Franklin Pierce University (FPU)   Rindge, NH
Bachelor of Arts   May 2015
- Major: Anthropology
- Concentration: Cultural Anthropology and Archaeology

EXPERIENCE

The William Vale Hotel   Brooklyn, New York
Sales and Operations Manager   June 2019 - June 2021

- Trained in event management software, as well as Banquet Event Order and contract creation.
- Monitored and processed 50-100 private event inquiries per day through Tripleseat.
- Assisted in the selling of event spaces and private dining experiences.
- Organized and managed events including a staff of 50-100 employees.
